- Divide the work in order for us to work more individually.
See use cases and LibGDX.
Plan UML session this week with all group members.
- Group Contract.
Complete it at the workshop.
- Other.
-

4. Outcomes

- We want to do our best, generally aim for higher than 3, but keep our focus on the project rather than the grade it might get.
- Work according to the schedule, and plan sessions every day.
- Postpone further discussions about additional ideas.
- Runvik is responsible for writing two more use cases until next meeting.
- Frodo is responsible for setting up the project until next meeting.
- We are now aware that we can find music resources at the library, which we will do later since it's not very relevant at this point in the process.
- Plan UML session this week with all group members.
- Complete the group contract at the workshop.

5. Wrap up, next meeting

Next formal meeting: Thursday. After mentor session.
